

AUSSIE FIGHTBACK!

Blue-Scope Steel has recently announced that 1000 workers are to be laid off from their Aussie Steel Manufacturing plants.

We've decided to do something about it!

Dinky Di Sheds usually don't have sales but we've made an exception and reduced our margins on a temporary basis to help stimulate the Australian steel manufacturing industry.

Here's the offer:

Purchase or place a deposit on your shed before Friday the 11th of November and receive a huge discount.

This is a genuine discount and cannot last. Show your support for quality Aussie made Steel, help Australian manufacturers and get a great deal on a shed at the same time.

Regards
Member of the Australian Steel Institute
